ABOUT ME

Results-driven software developer passionate about leveraging machine learning, algorithms, and full stack technologies to solve complex challenges. My experience spans front-end development with React, backend engineering with Java and Python, and contributions to eCommerce solutions. Dedicated to building scalable, efficient systems while constantly seeking opportunities for innovation.

SKILLS

Programming Languages: Java, Python, JavaScript

Web Development: React, HTML, CSS, Java Servlets

Backend & Frameworks: Node.js, Django, Spring Boot

Databases: MySQL

Tools & Platforms: Git, VS Code, Net Beans

EXPERIENCE

Software Engineer Intern :

Bennavi Softsolution - May 2024 - August 2024

Contributed to the development and maintenance of dynamic web applications utilizing HTML, CSS, and Laravel.

Engaged in collaborative discussions to enhance software functionality and design.

Acquired hands-on experience in the software development lifecycle and agile methodologies.

Partnered with the UI/UX team to deliver intuitive, user-friendly designs using Figma.

EDUCATION

Egerton University
